

DRONE

Stay Connected Wherever You Are

XC2 Dash Camera LTE + GPS + Security

- 4G LTE + GPS Connectivity
- 2K QHD Dash Camera (1440p)
- Supports up to 3 video inputs for monitoring the front, rear, and interior of any vehicle.
- Live view from anywhere on your smartphone or PC.
- Fast video previews of events uploaded to the cloud.
- Can be installed as standalone dash cam OR with aftermarket alarm/remote start.

*Labor not included. Ask your sales associate about install times.
Just like your smartphone, a DroneMobile module utilizes LTE which requires a data plan. This allows you to stay connected to your vehicle from anywhere around the world.
